Radhika Agrawal

+91 9559336667 | Gmail | LeetCode | LinkedIn | GitHub | Lucknow, Uttar Pradesh, India

Summary

Computer Science student with strong foundations in data structures, algorithms, and software engineering. Experienced in building scalable full-stack systems, machine learning solutions, and secure cryptographic applications. Interested in green cloud optimization and designing efficient, reliable systems with real-world impact.

Work Experience

- **console.success** *Jan 2026 – Present*
  Python Development Intern — R&D Track Remote
  – Developed AI-based traffic signal controller using Deep Q-Network (DQN), reducing average wait time by 20%.
  – Built CNN-based crop classification model with Grad-CAM visualization, improving interpretability and accuracy.
- **Samsung PRISM** *Aug 2025 – Present*
  Project Intern Remote
  – Designed and implemented Python-based log analysis tool for Android systems, processing large-scale logs efficiently.
  – Automated debugging workflows, reducing manual analysis time by 30%.
- **iStudio** *Apr 2025 – May 2025*
  Machine Learning Intern Remote
  – Built regression models achieving R^2 score of 0.85 on real-world datasets.
  – Designed scalable multi-model evaluation pipeline, improving model selection efficiency.
- **CollegeTips.in** *May 2025 – Jun 2025*
  Web Development Intern Remote
  – Developed responsive web applications using HTML, CSS, and JavaScript.
  – Deployed features used by 500+ users, improving engagement and usability.

Projects

- **Zero-Knowledge Task Verification System** *2026*
  – Built MERN-based system implementing Zero-Knowledge Proofs using SHA-256 and HMAC for secure verification.
  – Designed nonce-based challenge-response mechanism preventing replay attacks and ensuring authentication integrity.
- **Green Cloud Optimization Dashboard** *2025*
  – Developed Docker-based multi-VM simulation system with energy optimization algorithms.
  – Built interactive React dashboard to monitor cost, resource utilization, and sustainability metrics.
- **Education Portal App** *2024*
  – Built Flutter application with SQLite integration for task and course management.
  – Improved task tracking efficiency and user productivity through optimized UI/UX design.

Education

- **Vellore Institute of Technology** *Jul 2023 – Jul 2027*
  B.Tech in Computer Science and Engineering — CGPA: 9.35/10 Chennai, India
- **Seth Anandram Jaipuria School** *2023*
  Higher Secondary Certificate — 93.8% Lucknow, India
- **Delhi Public School** *2021*
  Secondary School Certificate — 99.4% Dehradun, India

Skills

– **Programming Languages:** Java, C++, C, Python, JavaScript
– **Web & Full Stack:** MERN (MongoDB, Express.js, React.js, Node.js), REST APIs, HTML, CSS
– **Data Science & ML:** Scikit-learn, TensorFlow, Pandas, NumPy
– **Tools & Platforms:** Docker, AWS, MySQL, Linux, Git

Leadership

- **Design Lead — Sangam Club, VIT Chennai** *May 2025 – Present*
  – Led design initiatives for 10+ events, increasing participation and engagement.

Certifications

- AWS Academy Graduate - Cloud Foundations - Training Badge — Amazon Web Services Training and Certification *Oct 2025*
- Java Programming Masterclass — Udemy *Dec 2024*
